

Before You start the ansys You must set the ansys environment related to the right ansys sersion:

Ansys 2019 Release 2: module purge; module load ansys/v2019r2

Ansys 2020 Release 2: module purge; module load ansys/v2020r2

Ansys 2021 Release 2: module purge; module load ansys/v2021r2

You can start the ansys workbench gui with the following command: wb

You can start the ansys product with the command

Fluent	fluent
Ansys Electronic Desktop	ansysedt
CFX	cfx5
IcemCFD	icemcfd

Hint 1: Please check with `module list` if a specific ansys environment is already active!
